

Integrity Ingrained

The American hardwoods we select from managed forests set the tone and appearance of our cabinetry. But there's something else that makes our cabinetry unique. At Woodmont Cabinetry, you'll find integrity ingrained in everything we do. A family-owned, faith-based company, our employees are the heart of our operation, building quality products and honest working relationships with our customers.

Yes, our products come with a warranty. But, they also come with our promise to keep manufacturing jobs in America, to minister to our community, and to safeguard our environment. Yes, our cabinets are beautiful to behold, but our customers remain loyal to Woodmont Cabinetry because of the warmth, character and integrity ingrained in everything we do. Doing things right. And doing the right things. It's how we craft our products, our lives and our business. And that's our promise.

Espresso

The Color

Espresso — intense, rich, flavorful. The place where comfort meets energy, where stability and verve collide. Deep, earthy espresso anchors us to the earth. It can bring a spirited warmth to any room — the kind of warmth worth getting out of bed for.

The Look

A hallmark of contemporary design, espresso is found most often in modern, transitional homes. With its masculine vitality, espresso is perfect for those who appreciate stability, tradition, and fresh pops of color. Effortlessly customizable, espresso pairs well with classic whites and creams, deep reds, bold metallics, and light blues and greens.

The Style

1 Pendant Lighting

Metallic-finished pendant lights create a sleek, industrial look over the kitchen's center island. Mix in more unique fixtures like swing-arm sconces or modern candelabras for added vintage modern style.

3 High Arc Pull-down Faucet

With the architectural design lines in its high gooseneck spout and lever handle, a pull-down faucet isn't just perfectly stylish — it's practical for filling large vessels or washing big pots.

4 Coffee Station

Echo the warm, welcoming vibe of your Espresso cabinets by setting up a coffee station in the kitchen. With cups, beans, cream and sugar at the ready, visitors to your new kitchen will enjoy the coffeehouse vibe.

2 Pops of Bright Color

Take a cue from Mother Nature — accent the warm, earthy tones of your cabinetry and flooring with more natural elements. A wood fruit bowl filled with apples, kumquats, oranges, or pears provides the perfect pop of all-natural color.

5 Subway Tile

At once modern and nostalgic, the clean, geometric design of subway tile is perfect for your contemporary kitchen. Instead of classic porcelain, consider beveled, glass, or even marble subway tiles. For added interest, choose a contrasting grout color.
