At Woodmont Cabinetry, you'll find integrity ingrained in everything we do. A family-owned, faith-based company, our employees are the heart of our operation, building quality products and honest working relationships with our customers.

Yes, our products come with a warranty. But, they also come with our promise to keep manufacturing jobs in America, to minister to our community, and to safeguard our environment. Yes, our cabinets are beautiful to behold, but our customers remain loyal to Woodmont Cabinetry because of the warmth, character and integrity ingrained in everything we do. Doing things right. And doing the right things. It's how we craft our products, our lives and our business. And that's our promise.

Ginger

The Style

The Color

Spice, personality, unexpected heat. Like the cuisines it lends its flavors to, ginger is bold. It can be sweet or savory, contemporary or classic. Ginger adds a rich, earthy warmth to any room it's used in, simultaneously grounding it and infusing it with passion and energy.

The Look

A ginger stain gives the perfect touch of spice to a transitional design. It's ideal for people who appreciate rich color, warmth and tradition. A ginger-stained kitchen is cozy and comfortable—with a touch of flair. Ginger-stained cabinetry pairs best with black, white, natural woods, green, persimmon and other bold hues.

1 Wood & Metal Pendant Lamps

Reminiscent of Japanese lanterns, white metal and natural wood pendant lamps set the tone for this kitchen's clean, crisp modern design.

3 Bali-Inspired Breakfast Bar

An island countertop with natural finish chic matching barstools give the space a refined look. The chairs' graceful low-curling backs and flared legs combine the best of Eastern minimalism and mid-century modern design.

2 Whimsical Art Prints

Symbolizing luck and prosperity in Chinese culture, a rooster print makes a stylish statement in any kitchen, but especially one with Asian flair.

4 Pops of Pure Green

Nothing inspires delicious, healthy dinners like natural greens. Create a small container garden in the window. Then, prominently position a rotating display of bamboo, fern, or greens to create a crisp, fresh-air feeling.

5 Grey Beveled Subway Tile

Subway tile doesn't have to be white! Beveled gray subway tile with monochromatic grout lines makes for a backsplash wall that supports the real stars of your kitchen – the cookware and fresh ingredients you use every day.
