

Integrity Ingrained

The American hardwoods we select from managed forests set the tone and appearance of our cabinetry. But there's something else that makes our cabinetry unique. At Woodmont Cabinetry, you'll find integrity ingrained in everything we do. A family-owned, faith-based company, our employees are the heart of our operation, building quality products and honest working relationships with our customers.

Yes, our products come with a warranty. But, they also come with our promise to keep manufacturing jobs in America, to minister to our community, and to safeguard our environment. Yes, our cabinets are beautiful to behold, but our customers remain loyal to Woodmont Cabinetry because of the warmth, character and integrity ingrained in everything we do. Doing things right. And doing the right things. It's how we craft our products, our lives and our business. And that's our promise.

Pebble

The Color

Cool, quiet, calming. Like a stone that's been tumbled over time, Pebble is soft enough to be a neutral, with just enough edge to add interest and sophistication to any room. It can update a classic kitchen or add depth to an ultramodern bathroom.

The Look

At once classic and contemporary, Pebble is a perfect neutral. It's mid-range saturation pairs beautifully with any color, whether it's light, dark, warm, or cool. Favorites include white for a crisp, clean look and dark charcoal for more dramatic effect. Pebble cabinetry also serves as an ideal backdrop for granite countertops and bright accent colors.

The Style

1

Ebony Rattan Chair

Thanks to their natural fibers, artfully hand-woven ebony rattan chairs aren't just unique; they're also lightweight, yet sturdy and durable. High on style, these chairs are also practical – they can be stacked to take up less room when not being used.

2

Extended Cabinetry in Living Space

Extending kitchen cabinets through the breakfast nook or family room visually expands the space and helps create a sense of cohesion from room to room.

3

Granite Countertops

The gold standard in kitchen countertops, granite is durable, virtually maintenance-free, and affordable. Best of all, granite comes in a variety of patterns and colors, many of them ideal natural complements to Pebble cabinetry.

4

Mortar and Pestle

Pesto, salsa, guacamole, aioli, chili paste – they all taste better when made with an authentic stone mortar and pestle. Used since ancient times, this beautiful kitchen tool is still the chef's preferred way to release natural favors.

5

Restaurant Grade Range with Stainless Steel Hood

Once serious cooking enthusiasts get a taste of the durability and cooking capabilities of commercial-grade cooking equipment, they're hooked. And the cherry on top? It looks great, too!
