

Integrity Ingrained

The American hardwoods we select from managed forests set the tone and appearance of our cabinetry. But there's something else that makes our cabinetry unique. At Woodmont Cabinetry, you'll find integrity ingrained in everything we do. A family-owned, faith-based company, our employees are the heart of our operation, building quality products and honest working relationships with our customers.

Yes, our products come with a warranty. But, they also come with our promise to keep manufacturing jobs in America, to minister to our community, and to safeguard our environment. Yes, our cabinets are beautiful to behold, but our customers remain loyal to Woodmont Cabinetry because of the warmth, character and integrity ingrained in everything we do. Doing things right. And doing the right things. It's how we craft our products, our lives and our business. And that's our promise.

Cordovan

The Style

The Color

The opulent burgundy undertones of cordovan-stained cabinetry bring out the latent warmth in natural wood. Cordovan cabinets pair nicely with whites, creams, grays and other neutrals. Cordovan also plays a perfect supporting role to bold tones like electric blue, hot pink, or garnet red.

The Look

Cordovan is the rich russet-burgundy leather found in high-end shoes, wallets, and barber's straps. Smooth, supple, and sophisticated, cordovan cabinetry adds an air of exclusivity and elegance to a traditional family kitchen or a distinguished gentleman's study. For a contemporary look, pair lighter cabinetry tones with the cordovan color; a touch of cordovan cabinetry by way of lower cabinets or a kitchen island will help ground a space and add gravitas.

1 Blue Velvet Tufted Dining Chairs

Make a bold statement in a neutral kitchen with dining chairs in solid-hued velvet upholstery. The elegant European-inspired silhouette and button-tufted details beautifully integrate the Old World charm of Cordovan cabinetry with the New World penchant for clean, sleek lines.

2 Little Pops of Color

Yes, you can successfully blend multiple neutrals - white, cordovan, and grays co-exist in perfect harmony in this successful design. The finishing touch? Pops of color that add zing to this contemporary kitchen. Bonus: you can continuously refresh the mood and feel of your space via ever-changing displays of flowers, foods, and small accessories.

3 Mix-and-Match Lighting

Create interest and add character by varying the brands and styles of lighting you use in an open space. Here, a modern drum chandelier softens the dining area while echoing the clean lines of the industrial style pendants.

4 Balanced Textures

Texture is an important part of any room's interior design; incorporate a wide range of complementary textures like leather, velvet, rustic wood, and stainless steel, to add visual impact and tactile appeal.

5 Moroccan Trellis Rug

Mimicking the shape of Moroccan tiles, a timeless geometric pattern gives this handmade rug classic appeal. The repeating pattern injects a sense of symmetry and proportion, while the contemporary light gray and white color palette warms the space and softens the look of rustic hardwood.
