

WOODMONT
CABINETRY

Made at Home – for Your Home

Made in America. For us, these three simple words are a principle and a responsibility that have been a cornerstone of our company for over 65 years.

As a family-owned and operated company, we strive to leave a legacy that includes more than our expertly-crafted cabinets. We support:

American manufacturing jobs: Our two Texas manufacturing facilities employ over 350 American workers, keeping jobs in the U.S. and helping our communities prosper.

American-made materials: We source lumber from American suppliers who harvest in Pennsylvania, Michigan, and Tennessee. We also partner with fellow American companies: Sherwin-Williams and Georgia Pacific for our finishing products and materials.

American safety, quality, and integrity:

International manufacturing involves major safety and quality risks as well as concerns over whether the product was ethically made. Certified by the KCMA (Kitchen Cabinet Manufacturers Association), Woodmont Cabinetry follows national regulations, as well as environmental standards, when it comes to factory emissions, wood harvesting, and more.
